

LA SUISSA

Piemonte  Italia

2025
Traditional piedmont chocolate

*Traditional
Piedmont chocolate*

Our story begins in 1981 in Piedmont, the valley of Italian chocolate, home of the most prestigious Italian chocolate creations, such as: gianduiotti, cremini and truffles. Since then, La Suissa has become a symbol of quality throughout Italy and throughout the world.

The first productions concerned only candies, toffees and jellies, then later also Easter eggs thanks above all to the workers specialized in decoration and packaging, a tradition that we still carry on. The first production line for chocolates was installed in 1991.

In 1999 La Suissa exhibited for the first time its products at an international fair, the ISM in Cologne, and today export represents an important part of the turnover.

WHAT MAKES US UNIQUE?

We are proud of our roots and love our land, Piedmont—a region rich in authentic flavors and guardian of ancient recipes. We have a deep respect for its fruits, such as hazelnuts, which is the high-quality ingredient in our products.
